*Automatic language conversion*

*Online registration*

*e-Commerce capability*

## Affordable e-Learning

IntraLearn SME is an affordable e-Learning platform that enables businesses and colleges to quickly create, manage and deliver interactive and measurable learning over the Internet and intranets. Highly scalable and secure, shrink-wrapped IntraLearn SME can be easily installed and configured in just hours and deployed in just a few days. IntraLearn SME is the choice for organizations looking for an affordable, feature-rich and fully integrated e-Learning product that they can begin using right out of the box.

## Feature Rich e-Learning

IntraLearn SME has integrated the features of expensive learning solutions into a single product. Course catalogs, online registration, course creation, interactive delivery, and assessments are all built in. Collaborativetools like chat, threaded discussions, e-mail, whiteboards, Internet links, and group/mentor rooms with file sharing are also integrated. Reports on learner progress and skills attainment are automatically generated.

## Accelerate Training Delivery

With IntraLearn SME, individual departments can quickly create, deliver, and manage dynamic training for immediate learner access to time-critical information. IntraLearn SME provides the tools, guidance and structure to enable authorized personnel, with limited technical knowledge, to deliver training themselves. With IntraLearn SME's simple and intuitive content creation, anyone with an Internet browser and knowledge to share can leverage the full power of IntraLearn SME.

## Powerful Technology

IntraLearn SME delivers the first off-the-shelf solution to address both global and

enterprise-wide learning challenges for mid-sized organizations and has been designed to leverage the scalability of Microsoft SQL Server 2000/ 7.0/Oracle 8i and integrating with Microsoft Windows 2000/Solaris/Linux and the security features of Microsoft Windows 2000. IntraLearn SME is Windows 2000 Server-certified and the company is a Microsoft Tier1 e-Learning and Gold Certified Partner.

## Courseware

Integrated Office 2000 authoring allows courses to be quickly and easily created directly inside IntraLearn SME. Learning providers and their clients can easily:

- Create courses with wizards and templates
- Import courses created in popular authoring tools
- Cut & paste HTML
- Import standards-based commercial courseware
- Duplicate courses

IntraLearn SME is AICC-certified, SCORM and IMS/LRN2-compliant.

## Decentralize Training

With IntraLearn SME, any authorized individual, anywhere in the organization, can create training programs and make them available to everyone else in the organization. It provides detailed reports, analysis and cost controls for all levels of training.

## Manage Knowledge Assets

IntraLearn SME enables corporations to manage the speed and effectiveness of knowledge transfer, while comprehensive reporting and analysis features deliver powerful management tools for tracking learner progress and involvement. The product's rich, interactive and collaborative features allow learners to communicate and share in the learning process. Assessments, testing, feedback and certification all help to quantify skill and competency levels.

***'Technology to power the e-Learning revolution'***

## System Administration

<b>Registration</b>	Batch enrollment, online registration, connects to external database
<b>Course &amp; System Admin.</b>	Administrative control at system, course and learner levels
